Heavens set to the time of this Ingress, this Quarter
produce things very material, and bring some Persons
Note into Contempt and Disgrace.

The Influence of the Configurations of this Quarter
prodigne, are appointed by Divine Providence to manifest
their Effects (both good and bad) in the Courts of Princes
and in all probability amongst some of the most
Persons and Families in Europe: God direct them for the
best in their great Councils and Consultations, and
that their End may be Peace and Unity, and so far as
rationally be Conjectured. This Summer will inform us
very great and serious Consultations of high Consequence
tending to the Settlement of some great Affairs.

*Now potent Nations Tied out with War,
To equitable Peace inclin'd are.*

Of the Summer Quarter.

THE Summer Quarter takes its beginning at such time as the Sun enters the Tropick of Cancer, which this year is on Saturday the 10th. Day of June, 22. Min. past 5 in the Afternoon, at which time 16 degrees of *Scorpio* stands in the East Horizon, and 24 degrees of *Virgo* is in the Medium Celi, and the position of the Coelestial Bodies at that time is as follows. ☉ 08° 00' ♋ 35' ♄ 2° 20' ♀ 26° 17' ☽ 3° 6' 23' ♃ 23° 33' ♅ 2° 40' ♄ Saturn is in Trine to ☉, and the Moon Applying to his Opposition, Jupiter in Trine to the Sun and Venus, Mars is in Trine to Saturn, and in Square to the Sun and Mercury, these with the Sun and Postventional Full and New-Moon considered, are likely to stir up the minds of Men to Attempt great things, whence sometimes is to very Honourable purposes makes Famous Discoveries, and often puts them upon great and Weighty Counsels, and Animates them to an easie and swift Progress therein; from whence we have great reason to hope well, and that (in a few Months time) we shall receive information of the particulars thereof, for the configurations of the Coelestial Bodies are most certainly concurrent at the time of this Ingress, for if ever there was need of great and serious Counsels in Europe, I may presently say now is the time.

Tempus omnia Revelat.

Of the Autumn Quarter.

THE Autumn or Harvest Quarter beginneth on Tuesday the 12th. Day of September, 41 Min. past 5 in the Evening at which time 27. degrees of *Virgo* is Ascending, and

and 25 degrees of *Gemini* is upon the Midhaven, and Planets thus posited, ☉ 00° 00' ♀ 20° 43' ♀ 3° 21' ♀ ♄ 6° 41' ♀ ♀ 21° 37' ♀ ♀ 15° 34' ♀ 19° 15' 118. The Aspects are ♄ * ☉ ♄ ☐ ♄. ☐. ♀. and *. to ♄. ♀. is in * to the ♄. and the Planets all direct in Motion. Now from the influences at this time in Operation (and most of them Beneficent) we may not only hope well, but expect many Deliberate Counsels, and some Eff. tual Conclusions and Honorable ones too before the Year expires. But to Sum up in a few Words: I judge not many Field contests by Sword, but Peace in some Country, and a better understanding in others Parts in order to Peace, and if in our Astrological Conjunctions we do not hit upon every particular Accident, Time, Place, &c. Let none condemn Art as uncertain, since no man can promise a certain indubitable Prescience of Future Events, for nothing more certain than that those Glorious Bodies the Sun, Moon and Stars next under God (who is the first moving Cause) have Influence upon all Sublunary Bodies, and they are secondary and Elementary Generation and Corruption, Production and Consummation of all things in this Sublunary and Elementary World, and therefore he hath in secret Wisdom so disposed of the Constitution of the Celestial Bodies, that his Will, by their Operations and several Influences, is from the beginning of the World acted and performed by them to the end thereof. When St. Austin frequently inculcates these Words in his Words *Deus Regit Inferiora per Superiora*, and Gerson excellently contends this, Heaven is the Instrument of God, where he governeth this Corruptible and Inferior Elementary World. And further in another place he hath these Words viz. That God foreknowing the changes of Men, hath described certain agreeable Tokens in Heaven concurring with the Course of the World even to the Day of Judgment. And thus the Astrologer considers Future Events, they are fore signified in their known Causes; Knowledge of Future things without their Causes absolutely belongs to God Almighty only, and to those he is pleased to reveal to his Prophets, &c. Whom he inspires; but in the Causes Men may attain that Knowledge, as Astrologers

Physicians, &c. Hence Astrology goes no further than
 that knowledge that is attain'd by Natural Causes. So that
 if a Man can shew the Adversary, a Natural Cause for his
 Conjecture, I think 'tis no crime or Intrenchment upon
 Gods Providence, to give a modest Judgment from the
 Stars, without Allowing or Maintaining any fatal Necessity.
